

Test Document for AI Analysis

This is a test document created to demonstrate the document parsing and AI analysis capabilities of the Alex AI Workspace.

Key Features:

- PDF parsing with text extraction
- Metadata extraction
- Page-by-page analysis
- AI-powered summarization

This document contains multiple paragraphs to test the parsing functionality. The AI should be able to extract this text and provide meaningful analysis.

Project Goals:

1. Implement comprehensive document parsing
2. Support multiple office formats (PDF, Word, Excel, PowerPoint)
3. Enable AI-powered document analysis
4. Provide chat interface for document Q&A

Conclusion:

This test document validates the document parsing implementation.
